The Future

The Facilities that you see today should greatly enhance village life in many ways.

However, in 2001, we should like to make the large hall suitable for concerts and shows, by providing modern sound and lighting equipment, an acoustic ceiling and a properly surfaced and landscaped car park.

Fund raising has already started, so please look out for future attractions, starting with Joe Gleeson's Irish Night in March.

We are grateful to the villagers who completed the decorating of the new accommodation - Debbie Keegan, Olive and Derek Nation, Phillip and Margaret Cooper and Gerald Davey.

We acknowledge the professional support in completing the work, including the Architect, Richard Clark, ARIBA, Croft Construction, and our Consultants, EECP and CCP.

Valuable assistance was also given by Bucks Community Action.
